#### What does the Company do?

HSL Software (UK) Limited offer customised software solutions for clients. We also developed SAM a Service Asset Management solution for businesses. SAM is a powerful fully-featured software solution that has been designed for managing company assets and customer service issues by companies and organisations. Our other products and services include: Sage Accounts and Payroll Software, CRM Software, Service Management Software and Custom software Development including E-Commerce Website solutions.

#### What is the background of the Company?

Hunter Systems (UK) Limited was established in 1995 as a complete IT solutions company, in 1999 the company added training and consultancy to its portfolio of products; due to the rapid growth in Training and Consultancy in 2003 the training division became a separate company and started trading as HSL Training Limited. The two companies now operate from separate locations in Nottinghamshire.

Hunter Systems changed its name in 2008 to HSL Software (UK) Limited, with its primary focus now being Software Development and Sage Accounting Software Solutions.

#### What are the unique selling points of the business?

We aim to develop leading quality cutting-edge software by, developing quality and cost effective software solutions, adding value, focusing on the real needs of our customers and providing customer service so as to develop long-term relationships.

We are Investor in people accredited and are currently going through the process of accreditation with ACCREDITuk.
